Conestogo Agri Systems Inc. - Operations Update

Dear valued customer,

With all the changes in the world recently, we at Conestogo Agri Systems Inc. took some time and discussed ways that we can serve you better and focus more on the milking equipment division of Conestogo Agri Systems Inc.

We have decided that it is time to combine our cooling installation team with the team from Buchanan & Hall from Stratford, ON. They are a refrigeration company that is dedicated 100% to the cooling equipment of your dairy farm. This change will be taking effect on July 1, 2020.

Conestogo Agri Systems Inc. will continue to sell new and used cooling systems, service control panels, agitators and fan motors during the daytime, and all after hours cooling calls will be forwarded automatically to Buchanan & Hall, who are located in Stratford, ON and have experienced service technicians living throughout this area.

Charlie Bauman manages Buchanan & Hall's farm cooling installations and repairs and is available at (519) 271-4793 or on his cell at (519) 801-0770. Please feel free to contact us with any concerns or questions both now and in the future.

Best regards,

Rick Struyk  
President  
Conestogo Agri Systems Inc.
